

# INNOVATION GRANTS

Effective, Equitable and Sustainable

Vitalyst Health Foundation is on a mission to inform, connect and support efforts to improve the health of individuals and communities in Arizona. The Innovation Grant process is designed to identify and invest in the development or demonstration of new ways to positively address complex issues that drive healthier outcomes.

Vitalyst Health Foundation is seeking proposals that test and implement solutions designed to actively reduce structural and/or systemic gaps in access, outcomes or opportunities.

## What is Innovation?

Think of Vitalyst’s Innovation Grants as an opportunity for communities to develop and test new and varied solutions to systems-level challenges.

*“A breakthrough in addressing a community issue that is more effective, equitable or sustainable than existing approaches.”*

## Community Innovation:

- Meaningfully engages key stakeholders.
- Willingly shares ownership and decision-making among partners.
- Creatively uses existing community resources and assets.
- Collectively practices testing and implementing solutions.

Content influenced by the Bush Foundation.

## Award Amounts

- One- to two-year awards
- Ranging from \$75,000 - \$125,000 total

## Grant Criteria

Letters of Intent and Full Proposals will be assessed based upon clear and concise responses.

- ➔ What is the capacity of the partnership?
- ➔ How will the project make a significant, sustainable difference, now and/or in the future?
- ➔ How does the project address one or more elements of a healthy community through an equity lens?
